ABOUT

I'm a business economics researcher focusing on the sustainable use of natural resources and the forest sector. In my work, I use data analysis tools and methods to investigate how industries and businesses can enhance their competitiveness while generating positive sustainability impacts. Overall, I aim to provide insights that contribute to a future where economic success is achieved within ecological boundaries.

CURRENT POSITION

2021- **Natural Resources Institute Finland (Luke)**, Research Scientist
I work in bioeconomy and environment unit. In my research, I have focused on business models and innovation in the forest industry, which I examined in my doctoral dissertation titled "Innovation Systems for Sustainability: Insights from Wood Construction Businesses and Land Use Planning in Finland."

EARLIER RELEVANT POSITIONS

2025-2026 **University of Massachusetts Amherst**, Building and Construction Technology, USA, Visiting Postdoctoral Researcher

2019-2021 **AFRY Management Consulting**

2017-2018 **University of Helsinki**, Research Assistant

2017 **Statistics Finland**

2016 **United Nations Economic Commission for Europe (UNECE)**, Switzerland, Intern

EDUCATION

2011-2025 **University of Helsinki,** Finland
2025 Ph.D. Doctor of Science (Agriculture and Forestry)
2018 M.Sc. Business economics of forestry
2016 B.Sc. Forest economics and marketing

01-06/2014 **Petrozavodsk State University**, Russia

- Student exchange
- Minor: Russian language

2012 **Aalto University**, Finland

- Minor: Production economics

RESEARCH AREAS

Forest industry, Business Economics, Sustainable Use of Renewable Natural Resources, Land-use planning, Innovation Systems
